

Health Basics

- Provides excellent nutritional support for growing children*
- Free of artificial flavors and sweeteners
- Supports healthy immune function*
- Fun and easy-to-eat chewables

Did You Know?

- **Usanimals** provides one of the best antioxidant complexes available among children's supplements.*

Good nutrition plays a critical role in everyone's health and is especially important for children because they are constantly growing, from birth to the end of adolescence. Pound for pound, a 5-year-old child needs more thiamin, riboflavin, niacin, vitamins A and C, and vitamins B6 and B12 than a 25-year-old man.¹ The **Usanimals**™ supplement, USANA's Essentials for kids, is an advanced formulation of nutrients necessary for a healthy childhood.

Nutrition for Growth

Growth involves much more than just the development of children's bodies. It is an intricate balance of varying growth rates, physiological changes, and shifting hormone status. While growth in childhood is slower than in infancy or adolescence, energy output is high with play periods that include plenty of running, jumping, and testing of new physical skills.

Today's Childhood Nutrition

Many studies show that children do not receive the nutrition they need from their diets. Less than 25 percent of young people eat the recommended five servings or more of fruits and vegetables each day, and nearly one-quarter of all vegetables consumed by children and adolescents are french fries.² Adequate amounts of key nutrients such as zinc, vitamin B6, magnesium, and calcium are missing from the diets of more than 50 percent of children from 2 to 10 years old.^{3,4}

ITEM# 105

Essentials for Children

In addition to a phytonutrient blend of blackberry, cranberry, raspberry, and wild blueberry fruit powders, **Usanimals** contain a comprehensive array of antioxidants, vitamins, and minerals, in amounts designed especially for active, growing children.

Being Healthy Can Be Fun

Children love the fun animal shapes and great-tasting natural wild berry flavor of **Usanimals**. Parents love it too, because USANA uses only natural flavors and sweeteners.
